STATE GOVERNMENT BUY BACK

On the 20th April Minister of State Development, Trade and Innovation Anna Bligh announced the QLD Governments agreement to purchase Hynes Hardwood Crown allocation in the Western Woodlands region.

These are the Mills at Monto and Munduberra. They are the major employers IN both communities. Where is the Scio-economic study into the impact of these closures? These communities are dependant on the Industry for their viability.

The Bulyian/Monto Branch asks what is the future for their town. Munduberra asks WHAT DO THEY DO NOW.

Timber Queensland have stated in their Press Release that there are still issues such as wood supply details for the remaining mills and the precise area that be reserved are yet to be resolved.

TCA ASKS just what does the Queensland State Government propose for the future of Monto and Munduberra.

Has the Queensland State Government sold these communities down the drain for green preferences in the next State election?

Our Roma Branch is paying close attention as this decision has ramifications for all the communities involved in the Cypress Industry.

Timber Communities Australia will not sit idly by and watch these communities wilt and die.

We call on the Queensland State Government to outline their plans for the future of Monto and Munduberra.
